### Key:

Number = Supported the pro-growth position. The number indicates the points earned for that vote or action.

A = Did not vote.

P = Voted "Present."

S = The Speaker of the House usually does not vote.

"-" = Voted against the pro-growth position.

I = Ineligible to vote.

### Calculation:

Points are tallied for all actions rated where the member was present and voting or otherwise could have taken an action. After points are totaled, they are divided by the potential points a member could have earned by supporting the pro-growth position.

Up to 10 points of a Representative's score was based on 10% of his score on the special "Spending Cut Scorecard," which was published last July and studied 45 votes on amendments offered in the House through June 30, 2012 to cut spending. A representative was awarded two points if the legislator refused to sign the discharge petition on the farm bill.

Up to 10 points of a Representative's score was based on 10% of his score on the special "Spending Cut Scorecard," which was published last July and studied 45 votes on amendments offered in the House through June 30, 2012 to cut spending. A representative was awarded two points if the legislator refused to sign the discharge petition on the farm bill.
