State	Senator	(See key on last page.)																				
Key:			Calculation:																			
Number = Supported the pro-growth position. The number indicates the points earned for that vote or action.			Points are tallied for all votes rated where the member was present and voting. After points are totaled, they are divided by the potential points a member could have earned by supporting the pro-growth position.																			
A = Did not vote.																						
"-" = Voted against the pro-growth position.			To account for all votes that impact spending, taxes and significant regulations, 10 points are counted for an "A" grade in the National Taxpayers Union rating of Congress, 8 points for a "B+", 7 points for a "B" and 4 points for a "B-".																			
			Finally, three points were given as bonus points for refusing earmarks and three more points were given for sponsoring bills that would in total reduce federal spending, as measured by the NTU Foundation BillTally report.
