Methodology

WPAi conducted a poll of $n = 411$ likely Republican primary election voters in Kentucky's Fourth Congressional District. Interviews were conducted June 10-11 by live telephone interviewers; 55% of the interviews were conducted to cell phones and 45% were conducted to landline phones. Respondents were selected from the Kentucky voter file with a probability of selection proportionate to their likelihood to vote in the Republican primary election. The survey has a margin of error of +4.9%. Sample was stratified by age, gender, and geography to ensure accurate representation of the primary electorate.
