Methodology

WPAi conducted a poll of n = 500 likely Republican primary voters in Idaho. Data was collected by live telephone interview March 7-9, 2022. Forty percent (40%) of interviews were conducted to cell phones and 60% to landline phones. The sample was selected from the Idaho voter file and was stratified by geography, age, gender, and vote history to ensure a representative sample. The survey has a margin of error of $\pm 4.4\%$ at the 95% confidence level.
