Methodology

WPAi conducted a poll of n = 400 likely Republican primary voters in Wyoming. Interviews were conducted by live telephone interviewers May 24-25, 2022; 50% of the interview were conducted to cell phones and 50% to landline phones. The sample was selected from the Wyoming voter file and stratified by geography, age, gender, and vote history to ensure a representative sample of the likely primary electorate. The survey has a margin of error of $\pm 4.9\%$ at the 95% confidence level.
