Methodology

WPAi conducted a poll of n = 500 likely voters in Nevada. Data was collected by live telephone interview October 16, 18, 2022. Sixty-four percent (64%) of interviews were conducted to cell phones and 36% to landline phones. The sample was selected from the Nevada voter file and was stratified by geography, age, gender, party registration, ethnicity, and vote history to ensure a representative sample. The survey has a margin of error of $\pm 4.4\%$ at the 95% confidence level.
