

# Redistricting is *Gaining Momentum*

**FROM:** DAVID McINTOSH, PRESIDENT, CLUB FOR GROWTH

**TO:** KEY DONORS & SUPPORTERS

**RE:** REDISTRICTING GAINING MOMENTUM

**DATE:** OCTOBER 15, 2025

**Control of the House—and President Trump’s agenda—hang in the balance.** Below is a concise briefing on our urgent, high-stakes redistricting effort—detailing a seven-figure strategy to secure fair maps in 2026 and safeguard conservative leadership.

## TOP LINE

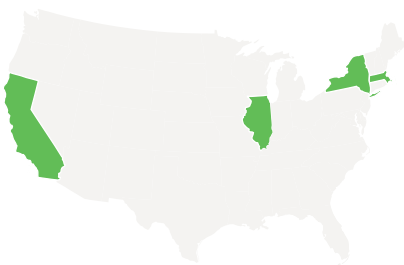

Club for Growth is playing a decisive role in redistricting battles across the country.

**We plan to invest seven figures to ensure** Republicans have a fair shot at keeping the House and completing President Trump’s agenda.

**We cannot allow Gavin Newsom** and the Left to continue to silence conservatives.

**Republicans are on offense.** The maps that will determine control of the House through the end of the decade will be locked in over the next few months.

## THE STAKES

For decades, Democrats have used the redistricting process to tilt the playing field against Republicans. Governor Newsom’s campaign this fall to further disenfranchise California Republicans is only the latest example of the Democrats’ blueprint: lock conservatives out of power.

**The numbers below speak for themselves.**

### CALIFORNIA

Republicans hold only **9 of 52 seats (17%)**, despite winning **39% of the congressional vote**—virtually identical to President Trump’s 38%.

### NEW YORK

GOP holds **7 of 26 seats (27%)** while winning **43% of the vote**, matching Trump’s statewide share.

### ILLINOIS

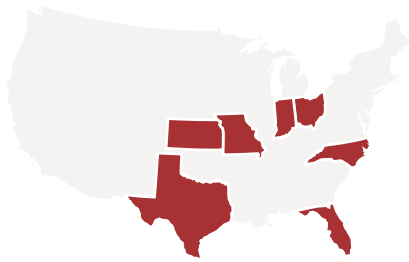

GOP holds **3 of 17 seats (18%)**, though Republicans earned **47% of the vote** (Trump won 43.5%).

### MASSACHUSETTS

Republicans hold **0 of 9 seats**, even as Trump won **36% of the vote**.

## OUR PLAN

Club for Growth is leading the nationwide fight for fair maps and delivering real wins:

### ACTIVE ADVOCACY:

**Indiana and Kansas** – running television and digital ads, launching phone campaigns, and encouraging elected officials to take bold action.

### PROVEN SUCCESS:

Significant victories in **Missouri, North Carolina and Texas**, where Republicans netted seven potential seats.

### NEXT TARGETS:

**Florida and Ohio**—where a constitutional mandate requires new maps.

## WHY YOUR SUPPORT MATTERS

**Redistricting this cycle will determine who controls Congress for years to come.**

This is not a fight we can afford to lose. With your help, Club for Growth will provide the resources, strategy, and national pressure necessary to ensure Republicans can fight and win the battle to hold the House on a level playing field.

**The time to act is now.** The Left is organized, well-funded, and desperate to return to power—but with your partnership, we can protect the conservative majority and secure President Trump's pro-growth agenda.

“

*Club for Growth, an influential conservative group, ran a 30-second ad on Tuesday encouraging Indiana Republicans to call their local state representatives... Former Indiana congressman David McIntosh (R), the group's president, said the club would spend at least \$1 million nationally backing redistricting.*
